

IIACK Y OUR = UTURE Bootcamp

POWERED BY

OPEN
KNOWLEDGE
BELGIUM

HackYourFuture ?

HackYourFuture trains the next generation of full-stack web developers.

Our students learned the fundamentals of full-stack web-development, with a focus on modern JavaScript.

They aren't just taught the mechanics of coding; they learned how to work on projects in a modern tech team & how to be problem-solvers. Our students learned to think like developers.

Our mission

We boost refugees' and migrants opportunities in the Belgian job market through coached development of open source projects with a positive impact.

The next step: Bootcamp

- An intensive 4 week bootcamp for refugees with experience in web development
- Promotion of open source projects with societal impact
- Coaching given by local IT experts
- Use of the best practices and methodologies in the Belgian IT industry

What is this all about...

Talented refugees lack the local
networks to start their career in the
Belgian IT sector

on the other hand...

Many innovative and impactful ideas never
get the chance to get to life due to a lack of
time or funding.

You wish to make a significant impact on the career of
talented refugees while promoting innovative ideas?

You can make this happen!

The magical recipe

*Inspired by the success of [Open Summer of Code](#).

A Bootcamp will follow after every 6 month HackYourFuture training.

WEEK 1

EXPLORE

WEEK 2

PROTOTYPE & ITERATE

WEEK 3

BUILD

WEEK 4

DELIVER

Our approach

A mix of two worlds powered by a blueprint with a proven track record:

The Belgian coding school for refugees which already trained over 60 individuals.

A 4 week summer programme where students create real-world applications through open innovation with 123 partners over 9 years.

The Bootcamp combines the project methodology of Open Summer of Code and the diversity of HackYourFuture.

How can you get involved?

We partner up with companies looking to foster innovation in the Belgian tech space while promoting social diversity in the work environment.

Help us to give refugees the opportunity to expose their talents while contributing to a better world!

Become a partner

It's a TRIPLE win:

1. You actively contribute to deploy open innovation and impactful projects enabling positive change
2. You participate in the professional integration of talented refugees in Belgium.
3. Busy growing your team? You get access to a talented pool of potential candidates!

Become a partner

Depending on your needs, we offer you different opportunities:

Bootcamp sponsorship

Your Corporate Social
Responsibility is boosted in a
sustainable and innovative way.

Your Brand is associated to
measurable impact.

Recruiting Partnership

We offer you priority access to
an interesting pool of web
developers for your own
company!

Bootcamp Sponsorship

Sponsorship packages	3.000	5.000	8.000
Logo on the website	x	x	x
Logo on developed project	x	x	x
Logo on t-shirts		x	x
Communication in social media and PR		x	x
Company name and logo in newsletter			x
Job Fair booth			x
Preference on project selection			x

Want to partner up but prefer to contribute through in-kind sponsorship (venue, transport ...) ?
Great! Get in touch with us to discuss how you like to be involved.

Recruiting partnership

Our candidates are trained to perform as experienced web developers in a modern tech team, write clean code, and think like problem solver. They will add significant value to your organisation.

HackYourFuture is a not-for-profit organization. Your commitment as a hiring partner allows us to remain financially independent.

You can hire a grad for:

- **Internship contract:** we don't charge any fee.
- **Full-time contract** we charge a single placement fee of € 2.500

Recruiting partnership

How it works:

1. Check out on our online platform the different profiles matching with your needs and contact them directly for an interview or technical assessment.

OR

We connect you with the right profile according to your requirements and needs.

2. We offer support if there are any questions regarding legal matters.

The founders behind it

**We believe that knowledge creates power for
the many, not the few.**

We believe that vibrant Open Knowledge commons will
empower citizens and enable **fair** and **sustainable** societies.

*HackYourFuture Belgium and Open Summer of Code are
some of the numerous initiatives created by Open
Knowledge Belgium to achieve this mission.*

Interested to partner up?

We would love to hear from you:
